Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filled after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filled, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Art Unit: 1633

#### **DETAILED ACTION**

1. Claims 1-2, 9-11, 19, 27, and 36-37 are currently pending.

## Claim Rejections - 35 USC § 102

2. The rejection of claim 1, 9-11, 19, and 27 under 35 U.S.C. 102(b) as being anticipated by Heitz et al. (US 4846789), is withdrawn in response to Applicant's amendment and arguments.

# Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 1-2, 9-11, 19, 27, and 36-37 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Heitz et al. for the reasons of record.
- 5. Applicant's arguments filed 2-12-07 have been fully considered but they are not persuasive. Applicants traversed the instant rejection on the grounds that Heitz et al. fails to teach or suggest the claimed halogenated xanthene compounds or compositions.
- 6. Applicants argued that the disclosure of "one or more" substitutions at positions 4, 5, 6, 7, 2', 4', 5' and 7' is quite a stretch from the 5-8 substituents present in Applicant's high halogenated xanthenes. "[A]ccordingly, the Examiner has clearly overextended the breadth of the disclosure of Heitz," and such an overextension is improper.

Application/Control Number: 09/900,355

Art Unit: 1633

- 7. Contrary to Applicant's assertions, the disclosure of Heitz et al. sets forth derivatives of fluorescein, wherein the derivatives of fluorescein comprises "one or more" subtituents at eight different positions. Contrary to Applicant's assertions, and absent evidence to the contrary, the compositions of Heitz et al. includes the "high halogenated xanthene" compounds an compositions according to the present invention.
- 8. As stated in the prior Office Action, Heitz et al. discloses a photodynamic medicament comprising halogenated xanthene compounds, such as derivatives of fluorescein (Col. 4, lines 15-25). These derivatives may have one or more substitutes in the 4, 5, 6, 7, 2', 4', 5', and 7' positions selected from the group consisting of fluoro, chloro, bromo, iodo, and etc. (col. 4, lines 22-27). The disclosure therefore encompasses recited compounds such as monobromoerythrosin, tribromoerythrosin, 2',4,5,6,7,7'-tetrabromoerythrosin, and monochloroerythrosin.

Heitz et al. teach using buffers for the medicament, see col. 5, lines 10-25. With respect to using different vehicles for medicaments, such as capsules, pellets, boluses, salt blocks, see col. 5, lines 25-28.

In regards to the intended use of the claimed compositions for various treatments and administrations, absent evidence to the contrary if the prior art structure is capable of performing the intended use, then it meets the claim.

"[W]here the general conditions of a claim are disclosed in the prior art, it is not inventive to discover the optimum or workable ranges by routine experimentation." In re Aller, 220 F.2d 454, 456, 105 USPQ 233, 235 (CCPA 1955).

Application/Control Number: 09/900,355

Art Unit: 1633

Applicant's have not provided any evidence of unexpected results to render the halogenated xanthene derivatives of the instant application, comprising 5-8 substituents, unobvious over the disclosure of Heitz et al. Applicant's arguments do not take the place of evidence of unexpected results.

### Double Patenting

The rejection of claims 1-2, 9-11, 19, 27 and 36-37 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-2, 4, 6-7, 10-12, 14, 26-27, 29, 31-32, 35-36, 42-43, and 45-52 of copending Application No. 09/799,795, is withdrawn in response to Applicant's filing of a terminal disclaimer.

### Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
